GENERAL INFORMATION

APPLICATIONS FOR TELEPHONE SERVICE

Applications for service, rates, changes in service, directory listings, directory advertising or other information, may be made by telephone, by mail, or in person to the Company's Business Office.

ACCOUNTS FOR SERVICE

Accounts are rendered monthly and are payable when rendered. Each subscriber's account shows charges for local service for one month beginning with date of bill, and Long Distance and Directory Advertising charges, if any, for one month preceding.

SERVICE DIFFICULTIES

Our aim is to render service that will be satisfactory to our customers. We realize that difficulties will occur despite all our efforts to avoid them. If at any time difficulties are not promptly corrected or unsatisfactory conditions persist, we will appreciate your communicating the facts to the Manager.

IDENTIFICATION OF EMPLOYEES

All employees of the Company whose duties require them to enter the premises of subscribers or others, are required to wear a badge similar to the accompanying illustration or to produce a card of identification from the Manager. Any person claiming to be an employee of the Company who is without this card or badge should be refused admission, and the Manager be notified at once by telephone.

INTERFERENCE WITH APPARATUS

A Subscriber is not allowed to remove or otherwise interfere with the wire connections or parts of any telephone apparatus leased from this Company, or make attachments thereto.

DIRECTORIES

Please check your listing and if it is incorrect in any way call the Business Office at once.

The Telephone Company assumes no liability on account of errors in or omissions from its directories. Telephone directories are and remain the property of the Company. They are printed for the exclusive use of the Company's patrons and are loaned to its subscribers. All persons are cautioned against reproducing their contents.

Subscribers must not use any binder, holder, or other attachments, except as provided by the Company.

MAGNETO RURAL PARTY LINE INSTRUCTIONS

Always listen before ringing, to ascertain if the line is in use and thus avoid interrupting a conversation that may be in progress.

Before calling a subscriber on your line make sure of his number by consulting the directory, then ring, being careful to make the signal distinct. The signal to give is indicated by the number following the letter "r". The first figure following the letter "r" represents the number of long rings, and the second figure, the number of short rings. For example, to call -r-24, give two long followed by four short rings. Do not press the push-button on your instrument when calling a subscriber on your line.

To call a subscriber on another line, signal the operator and give her the number. To signal the operator, press push-button while ringing.

When conversation is finished, replace receiver and give one quick ring-off. Do not press push-button while ringing off.

Conversation should not exceed five minutes' duration. Bear in mind that while you are using the line other subscribers are unable to do so.

PUBLIC NOTICE

This Company's tariffs are open to public inspection. The Exchange Tariff may be seen on application to the Manager at the Company's Business Office. Long Distance Toll Tariffs may be seen on application at the Head Office of the Company, in the City of Montreal, Que., or to the Company's Manager at the toll centre of any locality, the name of which toll centre will be furnished by the Manager of the Local Exchange.

The following are the toll centres for the district covered by this directory—

BELLEVILLE COBOURG OSHAWA
PETERBORO PORT HOPE

Attachments to Telephone Directories such as holders, advertising stickers, or auxiliary binders bearing advertisements are prohibited.

How To Use The Dial Telephone

The best use of your dial telephone will be obtained if you carefully follow the instructions found below.

BEFORE YOU DIAL

1. Obtain the Correct Telephone Number from the Directory.

2. Remove the Receiver and Listen for the Dial Tone

Do not start to dial until you hear the dial tone—a steady humming sound. If you do not hear it after waiting for a few seconds, hang up and try again a little later.

WHEN YOU DIAL

1. Keep the Receiver off the Hook.

2. Dial Carefully Each Figure of the Number in Turn.

Place your finger in the correct opening and rotate the dial until your finger strikes the stop.

Remove your finger and allow the dial to spin back by itself WITHOUT TOUCHING IT.

For example, to dial 275 first dial the figure "2" as explained above, next dial the figure "7" in the same way, followed by the figure "5."

If your finger slips, or you make a mistake, hang up for a few seconds, then remove the receiver, listen for the dial tone and dial the number again.

AFTER YOU DIAL

1. Listen for Signals

Ringing—A soft, intermittent bur-r-r indicating the called telephone is ringing.

Busy—A buzz-buzz-buzz, indicating the called telephone, or line, is busy and that you should hang up and try again later. (See also instructions under "Rural and Two-Party Line Subscribers.")

2. Wait For Called Party to Answer

Failure to wait a sufficient time is the cause of many ineffective calls. Give the person you call time to reach his telephone.

3. When You Talk

Speak distinctly in your natural tone of voice with your lips about one-half inch from the mouthpiece.

4. Replace the Receiver

Failure to do so at the termination of your call will make all telephones on both your own and the called line busy to incoming calls. In addition, it will prevent calls being placed from any of these telephones while this condition exists.

RURAL AND TWO-PARTY LINE SUBSCRIBERS

It is particularly important that you listen before starting to dial, as someone else may be using the line. If the line is in use, hang up and call again later. If you do not hear either dial tone or a conversation, ask if the line is in use.

If, after you start to dial, you hear another party come in on the line, inform him that the line is in use. When he hangs up, restore your receiver for a moment, then remove it, listen for dial tone and dial the number again.

With dial service SUBSCRIBERS SHOULD NOT LIFT THE RECEIVER EXCEPT TO MAKE OR ANSWER A CALL.

If the number you dial is on your party line, you will hear the busy signal, and when you hang up, your telephone will ring. In such cases you may hear either a one-ring code or the ringing code of the called telephone. When ringing stops, the called party has answered, therefore remove your receiver promptly and talk. If the called party does not answer, ringing will continue until you lift the receiver for a moment to stop it.

Whenever you hear the busy signal you should therefore listen after hanging up to see if your telephone rings, indicating that you have called a party on your own line.

When you answer your telephone, if no one appears to be on the line, wait a few seconds before hanging up, as a subscriber on your party-line may be calling you.

CALLS NOT COMPLETED

When for any reason you do not obtain a connection (for example, when the called line is busy or does not answer), try the call again after a reasonable interval. If neither the ringing signal nor the busy signal is heard, hang up the receiver, consult the directory for the correct number, then dial again. After one or two attempts, call the operator and explain the circumstances to her.

TO CALL THE OPERATOR

To dial the operator, remove the receiver, listen for dial tone, place the finger in the opening of the dial marked "OPERATOR" and pull it around to the finger stop, then release and wait for the operator to answer.

LONG DISTANCE RATES FROM
OSHAWA and COBOURG

The 10c rate is for a five-minute talk; all others three minutes.

Note the "Night" and "Sunday" rates which apply on both "Anyone" and "Person-to-Person" calls. Night rates apply from 7 p.m. to 4.30 a.m. weekdays and from 7 p.m. Saturday, all day Sunday to 4.30 a.m. Monday.

Windsor	1.60	.85	2.00	1.25

†A different rate applies to certain central offices.

On calls for which the charge is 20 cents or more, a Dominion Government tax of 6 per cent applies (not exceeding 25 cents for any one call).

"ANYONE" (STATION-TO-STATION) CALLS

When you give "Long Distance" the number you are calling and tell her "Anyone there will do," you are making what is known as an "Anyone" (or Station-to-Station) call.

Low Night rates are in effect from 7 p.m. to 4.30 a.m. weekdays and all day Sunday, except to nearby points.

PERSON-TO-PERSON CALLS

When you specify an individual to whom you must speak (a Person-to-Person call) the rate is somewhat higher than for an "Anyone" (Station-to-Station) call, because Person-to-Person calls require more operating time. If the particular person is not available when you first place the call, the operator will make subsequent attempts to complete it.

Low Night rates are in effect from 7 p.m. to 4.30 a.m., weekdays and all day Sunday, except to nearby points.

A small report charge is made in connection with certain "Person-to-Person" and collect "Anyone" (Station-to-Station) calls which cannot be completed.

Saves miles of steps . . .

An Extension Telephone is a wonderful step-saver throughout the day and doubly convenient for night calls.

"It's no trouble —I have a telephone in the Kitchen"

• When you are busy in the kitchen and friends telephone, or you have an order to give the grocer, it is always troublesome to have to go to a telephone in another part of the house.

The modern housewife has a telephone in the kitchen where she can use it quickly and conveniently, save time and extra steps, and prevent spoiled cooking and endless annoyance.

You can have an extension telephone in your kitchen for only a few cents a day. Any Bell Telephone employee will be glad to give you particulars and see that your order is carried out promptly.

VALUE FAR ABOVE PRICE

There is more—much more—to your telephone than the little black instrument you know so well. And its value is many times greater than the small monthly sum you pay for service.

Behind your telephone is a vast organization of workers, striving to keep the service at a maximum of efficiency—ensuring that you be connected at will with millions of other telephones throughout the world.

Many calls are pleasant social chats—others mean the difference between loss and safeguarding of property, even between life and death. Your telephone is your servant 24 hours every day of the year.

And it costs only a few cents a day.

Is there anything that gives more for what it costs?

IMPORTANT DETAILS SECURED BY TELEPHONE

How a Long Distance call saved the sale of a threshing machine for a farm equipment firm, is related by the firm's credit manager:

"A customer, anxious for immediate delivery of the machine, gave notes in payment with his farm as security. But since the farm was jointly owned, is was necessary that the partner, too, sign the notes. To avoid delay is was suggested that the partner's consent be secured by telephone. A Long Distance call was placed. In less than three minutes all necessary arrangements were completed.

"Had we not used the telephone, delivery of the machine would have been delayed considerably, and it is possible that the sale would bave been lost entirely."

FOR BETTER SERVICE

A subscriber who uses his telephone a great deal, finds that frequently when someone calls him, his telephone rings at least six times before he can get to it to answer. He lays great emphasis on the calling subscriber giving the one called sufficient time to answer. This is a worthwhile suggestion. A little longer wait before you abandon the call you are making, would result in better service all round.

THE BELL TELEPHONE COMPANY OF CANADA
LOCAL LONG DISTANCE TELEPHONE

"Let's call him and find out"

This timely suggestion secured for one enterprising salesman an important order which he might have lost.

"I was sailing along telling my story," relates this salesman, "as I had told it to scores of customers, when this shrewd buyer popped a question that had me stumped.

"I knew our sales manager had the answer, but he was 250 miles away.

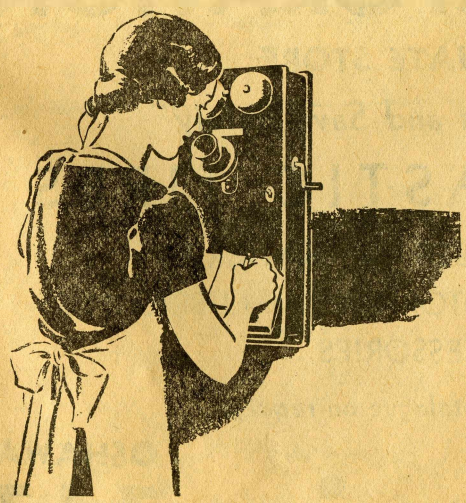

" 'Let's call him and find out,' I suggested. In less than two minutes I had the question answered to my customer's satisfaction.

"Long Distance had saved the day—and the order!"

Better Service for Party Line Subscribers

1. Be sure you have the right number in mind. If in doubt consult your telephone book.
2. Before calling, find out whether the line is in use. If it is, hang up your receiver promptly.
3. Always wait a sufficient time for the called party to answer, at least five ringing intervals.
4. Speak distinctly and directly into the transmitter, with your lips close to the mouthpiece.
5. When your telephone rings, answer promptly.
6. Avoid unduly long conversations. Short conversations will keep the line open and make the service of most value to everyone.
7. Always replace the receiver immediately after conversation is over.
8. Do not allow children or others to listen to or interrupt your neighbour's conversation.

The practices suggested above have been found to greatly improve party-line service.
